**Subject:** Price Canyon application for Safe Drinking Water Act

Dear Michele,

My name is Christine Molony and I live [Ex. 6 - Personal Privacy] which is down from the oil fields about 1 to 1 1/2 miles.

For years I have been experiencing an oil slick on my well water. I am afraid to drink it myself. Since I grow my own food and have livestock I am concerned about Freeport McMoRan getting an exemption from the Safe Drinking Water Act which will lead to more pollution of my and my neighbor's precious water source.

I oppose any exemption and believe they should be held accountable for the amounts of water already contaminated and made to stop any further pollution.

Respectfully,

Christine Molony
